Formulation of Board Policy

The authority and responsibility to enact College policy rests with the Board. The Board, in consultation with the Office of the General Counsel and the President, will continually monitor its Policies to ensure their compliance with applicable state and federal laws and regulations, accreditation standards, and best practices, their effectiveness, and their applicability to then-current conditions at the College. The President and/or his/her designee, in consultation with the Office of the General Counsel, shall conduct periodic reviews of the Policies and make recommendations for changes, alterations, revisions and updates to such Policies to the Board.

If the Board proposes new or modified Policies, the President will notify the College's Shared Governance Council (or its successor) of impending changes to any existing Policy, or any proposed new Policy and, where appropriate, will seek input from stakeholders. A Policy will require two readings by the Board prior to adoption. The readings will be agenda items at meetings of the Board. Legal Counsel

Protecting and advancing the College's legal rights, claims, and objectives is essential to the proper governance of the College. Accordingly, the Board reserves the discretion to retain the professional services of legal counsel, including outside counsel engaged as vendors and counsel serving as College employees within the Office of the General Counsel (in this Policy sometimes hereafter, "OGC"). The College's chief legal officer, designated as the General Counsel, will serve as a member of the President's Cabinet and report administratively to the President. The General Counsel (and any additional counsel employed within the OGC) shall serve at the pleasure of the Board, shall provide information and counsel to the Board, and shall have direct and independent access to the Board when deemed necessary in counsel's professional judgment.

OGC lawyers protect the College's interests by providing responsible legal advice to the College as a whole entity. Because the College as a whole entity is the OGC's sole client, OGC lawyers owe professional responsibilities to the College. OGC lawyers must conform their conduct to the generally accepted standards of the legal profession, including the Illinois Rules of Professional Conduct promulgated by the Supreme Court of Illinois. These include, without limitation, standards of integrity, competence, diligence, and communication.

OGC lawyers are precluded from providing legal advice or representation to College Trustees, Employees, or agents on personal legal matters. In circumstances where the activities or interests of the College are implicated, the College may be obligated or otherwise elect to provide legal representation to individual College Trustees, Employees, or agents.

The OGC manages outside legal counsel and related service providers for the College. Retention of outside counsel shall be in accordance with the College's procurement policies and procedures; provided, however, that any engagement with outside counsel in which the professional fees incurred by outside counsel will total \$15,000 or more, during the entirety of the professional engagement, must be approved by the Board.

Safeguarding privileged information is of paramount importance to the College's legal interests. Although the Board must know relevant information to make informed decisions regarding legal matters, the Board also recognizes that the dissemination of privileged and confidential information can cause a legal privilege belonging to the College to be unintentionally forfeited. Accordingly, information concerning the College's legal affairs shall be provided to the Board and individual Trustees as follows:

- (1) OGC lawyers shall regularly attend Board meetings to apprise the Board regarding legal matters and to answer questions posed by individual Trustees; and outside counsel retained by the College shall attend Board meetings upon request;

- (2) OGC lawyers (and outside counsel upon request and in consultation with the OGC) shall make themselves reasonably available to answer questions and provide information to individual Trustees between meetings;
- (3) No less than once per month, the OGC shall provide a confidential written update to the Board regarding the status of any matters pending before courts or administrative agencies;
- (4) Counsel shall provide, upon request, copies of non-privileged communications between College and litigation adversaries as well as copies of publicly filed documents;
- (5) With respect to privileged documents and any other documents, the Board may, in its discretion, direct counsel to disseminate such materials to an individual Trustee with or without conditions designed to maintain confidentiality; and
- (6) No individual Trustee is authorized to waive the attorney-client privilege on behalf of the Board; only a majority of the Board may do so.

Purpose. The College has adopted this Investment Policy Statement to provide a clear understanding between and among Trustees, outside investment managers and advisors and other interested parties concerning the investment of College funds. This Policy will be used to evaluate the performance of the investment portfolio and investment providers.

The College shall invest public funds in a manner that:

- Seeks to preserve capital while earning a market rate of return relative to the acceptable level of risk undertaken as defined in this Policy;
- Meets the cash flow needs of the College, and
- Complies with all applicable federal, state and local laws and regulation, including, but not limited to, the Illinois Public Funds Investment Act, 30 ILCS 235/1, *et seq.* and the Community College Act, as may be amended from time to time.

Scope of Policy. As required by the Public Funds Investment Act, this Investment Policy governs the investment of all College funds, including any new or temporary funds placed within the custody of the College, and will be administered consistent with applicable state and federal laws. These funds are reported in the College’s Comprehensive Annual Financial Report (“CAFR”) and generally include:

- i. Local property taxes received from the County Treasurers in DuPage, Cook and Will Counties;
- ii. Monies received from the State of Illinois for Base Operating and other grants or other funds received from any political or corporate subdivision;
- iii. Tuition and fees collected from students;

Upon approval and upon future amendment, if any, copies of this Policy will be delivered to:

- The Board, Audit Committee, Treasurer, and, as appropriate, other officers of the College;
- All depositories or fiduciaries of public funds of the College; and
- Any investment advisers or managers used by the College.

The investment of bond funds or sinking funds shall comply with this Policy and the requirements of any applicable bond resolution.

The Treasurer’s Advisory Committee participated in the development and review this Policy.

Responsibility of Treasurer for Investment Program and Related Operational Procedures. The Board has ultimate fiduciary responsibility for the investment of College funds. To execute these responsibilities, the Board approves the Policy and delegates responsibility to the Treasurer. The Treasurer shall be responsible for developing and overseeing a program for monitoring all transactions and shall establish written operational procedures designed to prevent losses of funds that might arise from fraud, employee error, misrepresentation by third parties, or imprudent action by College Employees. The procedures shall include a system of controls for all authorized subordinates who are directly involved in investment activities. The Treasurer may delegate the day-to-day responsibility for the investment of College funds to the College's Controller. Only the Treasurer is authorized to establish investment accounts for the College.

Authorized signatories are not permitted to reconcile bank accounts at any time.

The Treasurer shall annually cause a review of internal controls to be conducted to ensure compliance with this Policy.

Objectives. The purpose of this Investment Policy is to establish cash management and investment guidelines for the stewardship of public funds of the College. The specific objectives of the policy will be as follows:

- **Safety** – The security of monies, whether on hand or invested, and preservation of principal in the overall portfolio shall be the primary concern of the Treasurer in selecting depositories or investments.
- **Liquidity** – the investment portfolio shall remain sufficiently liquid to meet all reasonably anticipated operating requirements over the next 3-4 years.
- **Return** – The Treasurer shall seek to attain a return comparable with the average return of a U.S. Treasury Bill or Treasury Index that most closely reflects the duration of the portfolio, taking into account risk, constraints, cash flow, and legal restrictions on investment as defined by this Policy and applicable law and other Board Policies. All investments shall be selected on the basis of best execution.
- **Sustainability** – Material, relevant, and decision-useful sustainability factors are regularly considered by the College, within the bounds of financial and fiduciary prudence, in evaluating investment decisions. Such factors include, but are not limited to: a) corporate governance and leadership factors; b) environmental factors; c) social capital factors; d) human capital factors; and e) business model and innovation factors, as provided under the Illinois Sustainable Investing Act.

The Treasurer will work with Financial Affairs Department to maintain a cash forecast and allocate the funds by duration and investment type. This forecast will be used by the Treasurer to determine when funds may be required for expenditure. Funds will be invested with the prioritization of safety, liquidity and return.

Authorized Investments. The College may invest its funds in any investments allowed by Section 2 of the Public Funds Investment Act, including, without limitation, the following:

1. Notes, bonds, certificates of indebtedness, treasury bills, or other securities, which are guaranteed by the full faith and credit of the United States of America as to principal and interest. Maximum Aggregate Limit: No limit.

6. Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois, of any other state, or of any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax-exempt under federal law. However, unless specifically stated in the authorized investments above, the maximum allowable maturity purchased shall be five years. Prohibited Investments. The College strictly prohibits investing directly in the following financial instruments:

- Any derivatives such as forwards, swaps or futures contracts;

Authorized Financial Institutions and Intermediaries. The Treasurer, with the assistance of staff, will limit investments to financial institutions determined by the Treasurer to be compliant with this Policy. These financial institutions may include depositories, investment advisors, broker/dealers, intermediaries, and local government investment pools, banks, savings and loans and credit unions. The Treasurer will obtain information which will provide him or her with assurance that the institution will agree to comply with this Policy. Financial institutions selected to engage in transactions with the College shall be at the sole discretion of the Board. Consideration for working with any financial institution will include financial condition, level and breadth of service, competitive pricing and experience working with other higher education and/or government institutions.

All depositories shall be insured by the Federal Deposit Insurance Corporation ("FDIC") or the National Credit Union Administration ("NCUA") and may consist of banks, savings and loan associations and credit unions that meet the following requirements:

In making decisions regarding contracting with service providers, the Treasurer will consider any relevant Board Policies related to doing business with firms controlled by women, minorities and people with disabilities.

Collateralization. In recognition of the GFOA recommended practice on Collateralization of Public Deposits, it is the policy of the College to require that non-negotiable time deposits in excess of FDIC and NCUSIF insurable limits must be secured by collateral or AAA-rated private insurance at time of purchase to protect public deposits in a single financial institution if it were to default.

1. It is the policy of the College to require that time deposits in excess of federally insured limits be secured by collateral (102%), or if, at the time of purchase, the bank carries a top tier short-term rating of A1/P1 or better without regard to gradation and long-term rating of A- or better and is on the Approved List of the College’s contracted SEC-registered Investment Advisor, or private insurance to protect public deposits in a single financial institution if it were to default.
2. Eligible collateral instruments are any investment instruments acceptable under and subject to the conditions set forth in Sections 6(d) through 6(g) of the Illinois Public Funds Investment Act. 3. Maturity of acceptable collateral shall not exceed 120 months.

4. The ratio of fair market value of collateral to the amount of funds secured shall be reviewed monthly and additional collateral will be requested when the ratio declines below the level required.
5. Third party safekeeping is required for all collateral. To accomplish this, the pledged securities will be held at a safekeeping depository as approved from time to time by the Treasurer. Safekeeping will be documented by an approved written agreement. Substitution, exchange or release of securities held in safekeeping may be done upon two (2) days prior written notice to the Treasurer, and only on condition that the market value of the replacement securities is equal to or greater than the market value of the securities for which they are being substituted.

Safekeeping of Securities. Securities, unless held physically by the College, require third party safekeeping. The College will have the sole responsibility for selecting safekeeping agents. Safekeeping will be documented by an approved written agreement. As applicable, security transactions shall be on a Delivery Versus Payment (DVP) basis.

Prudent Person Standard. Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the possible income to be derived.

In maintaining its investment portfolio, the Treasurer shall avoid any transaction that might impair public confidence in the College.

The above standards are established as standards for professional responsibility and shall be applied in the context of managing the portfolio.

Investments shall be made seeking the highest returns consistent with: (1) preservation of capital; (2) the College's anticipated cash flow needs; (3) prudent investment principles; and (4) applicable federal, state and local laws and regulations and this Policy.

The Treasurer and College Employees acting in accordance with this Policy and Procedures as have been or may be established and exercising due diligence shall be relieved of personal liability for an individual security's credit risk or market changes.

Performance Measures. The Treasurer will seek to earn a rate of return appropriate for the type of investments being managed, given the portfolio objectives, over the course of a complete market cycle. The Treasurer will establish and maintain the College's benchmark(s).

The Treasurer will report monthly to the Board on all investments, financial institutions, investment amounts, interest rates, maturity dates and other pertinent information deemed necessary. At least quarterly, the Treasurer shall provide a report of investment activities to the Board and President, including information regarding securities in the portfolio by class or type, book value, income earned, credit quality, and market value as of the report date.

Selection of Investment Managers. The College may engage the services of an external investment manager to assist in the management of the College's investment portfolio in a manner consistent with the College's objectives. Such external managers may be granted discretion to purchase and sell investment securities in accordance with this Policy and applicable laws and regulations. Such managers must be registered under the Investment Advisers Act of 1940.

The Board is responsible for the selection of investment managers and such selection must be made through prudent due diligence procedures. The criteria for selecting investment managers include, but are not necessarily limited to:

- Organizational factors
- Investment capabilities

Long-Term Debt Management

Purpose

To establish a policy governing long-term financial obligations that bear the College's name or name of any subordinate Agency for the College.

Background

The College recognizes that it may need to enter into long-term financial obligations to acquire or construct capital assets to meet the service needs of the District, and that these financial obligations must be managed properly. The adoption of a long-term financial strategy and policy is important to ensure sound financial management practices. This policy is general and therefore allows for exceptions in extraordinary conditions. For the purposes of this policy, long-term financial obligations are those that exceed one Fiscal Year, and include certificates of participation, bonds, or similar instruments (including, but not limited to, bank loans and letters of credit) that require the acquisition of capital from the financial markets and are supported by the College's municipal credit rating(s). This policy does not apply to leases in which the payments are not "securitized."

Policy

It is the policy of the Board that the following guidelines and restrictions will be applied during the debt issuance process and the management of the College's debt portfolio:

1. Long-Term Debt Limits
 - a. All long-term financings shall comply with federal, state and local requirements.
 - b. All long-term obligations must be approved by the Board after approval and recommendation by the Chief Financial Officer and/or Treasurer.
 - c. Prior to the recommendation, the Chief Financial Officer/Treasurer shall assess the ability of the College to repay the obligation, identify the funding source of repayment, evaluate the impact of the ongoing obligation on the current budget and future budgets, assess the maintenance and operational requirements of the project to be financed, and consider the impact on the College's credit rating.
 - d. The term of the long-term obligation will not exceed the useful life or the average life of the project or projects being financed.
 - e. The State of Illinois has established limits on the amount of bonded indebtedness that a local government can have outstanding. For Illinois

community colleges, the debt limit is 2.875% of the most current equalized assessed valuation of property within the community college's borders.

2. Uses of Long-Term Debt

- a. Long-term financial obligations will not be used to finance current operations or for recurring needs.
- b. Capital projects identified as candidates for debt financing should have first been identified and prioritized during the development of the College's multi-year Facilities Master Plan and/or Facility Condition Assessment. If the Chief Financial Officer/Treasurer deems that the financing is feasible, financially and economically prudent, coincides with the College's objectives, and does not impair the College's creditworthiness, then it will be forwarded to the Board for consideration.
- c. Refunding is a procedure whereby the College refinances an outstanding issue by issuing new bonds. Bonds can be refunded to remove burdensome covenants, restructure the stream of debt service payments to reduce costs, or reduce interest costs. Whenever deemed to be in the best interest of the College, it shall consider refunding or restructuring outstanding debt when financially advantageous or beneficial for structuring.

3. Method of Sale

- a. The College will generally conduct bond sales on a competitive basis in which the College and its financial advisor will set the terms of the sale to encourage as many bidders as possible. However, a negotiated financing or private placement may be pursued when appropriate. A negotiated financing may be used where market volatility, refunding sensitivity, or the use of an unusual or complex financing or security structure causes a concern with regard to marketability. Such determination may be made on an issue-by-issue basis for a series of issues, or for part or all of a specific financing program. In the case of a public sale, the underwriting team is selected through a competitive procurement process and the ultimate decision will be based on the team's qualifications.

4. Management Practices

- a. The College shall encourage and maintain good relations with credit rating agencies, investors in the College's long-term financial obligations, and those in the financial community who participate in the issuance or monitoring of the College's long-term obligations. A policy of full and open disclosure on every financial report, official statement, and long-term obligation transaction will be enforced, and a credit rating agency presentation/update shall be conducted when needed.
- b. The College shall comply with all on-going disclosure conditions and shall file such required documents in a timely manner.

- c. The College shall monitor earnings on bond proceeds and rebate excess earnings as required to the U.S. Treasury to avoid the loss of tax-exempt status (*arbitrage rebate calculation*). A third-party vendor may be used to compute this.
- d. The College shall continually review outstanding obligations and initiate refundings when economically feasible and advantageous.
- e. Bond proceeds shall be invested in accordance with the College's investment policy and bond covenants as applicable.

College Ethics Policy

All College Trustees and Employees have an obligation to act in the best interests of the College and prevent personal interests from interfering with that obligation. To that end, all College Trustees and Employees shall avoid actual or apparent conflicts of interest, solicitation and/or acceptance of gifts, and participation in certain political activities, that could impair their ability to make impartial decisions.

The Board adopts in its totality the Ethics Ordinance prescribed by sections 70-5(i) and (ii) of the Illinois State Officials and Employees Ethics Act, 5 ILCS 430/1-1 *et seq.*, as part of its Ethics Policy. A complete statement of the Ethics Ordinance is Appendix A to this Policy Manual.

Nothing in this Policy or the Ethics Ordinance shall restrict or limit a Trustee or Employee's obligations and duties under state and federal laws and regulations or other Policies with regard to conflicts of interests, ethics violations, malfeasance, misfeasance, non-feasance, or other misconduct.

The College's Internal Auditor is charged with developing and promulgating Administrative Procedures in furtherance of this Policy and shall be responsible for receiving and investigating complaints and allegations of violations of this Policy.

History:

- Adopted 1/21/21

Conflicts of Interests

Prohibition. All College Trustees and Employees (collectively, “College Personnel”) have an obligation to act in the best interests of the College and to prevent personal interests from interfering with that obligation. When College resources are used for personal benefit in a manner that is inconsistent with the College’s interests, or when College Personnel allow personal interests to interfere with their ability to make impartial decisions on behalf of the College, an impermissible conflict of interests is created. All College Personnel shall therefore avoid either actual or apparent conflicts of interests.

Recognizing Conflicts of Interests. College Personnel should recognize and avoid circumstances that may give rise to an actual or apparent conflict of interest. To that end, the following examples, which are not intended to be comprehensive or exhaustive, are intended to assist College Personnel in recognizing and avoiding common conflicts of interests:

- Business or financial relationships between the College and College Personnel (other than legitimate employment relationships).
- Business or financial relationships between the College and any Related Party and/or Affiliated Entity, unless the relationship has been reviewed and approved in advance by the Board’s Audit Committee and found to be of clear benefit to the College, capable of proper management and oversight, and compliant with all applicable College Policies, Administrative Procedures, and regulations regarding procurement and competitive bidding.
- Direct investments by a Trustee or Administrator, any Related Party of a Trustee or Administrator, or any Affiliated Entity of any of the foregoing, in any Investment Vehicle in which any of the foregoing individuals knows that the College has a Significant Financial Interest.
- Direct investments in an Investment Vehicle in which a Trustee or Administrator, a Related Party of a Trustee or Administrator, or an Affiliated Entity of any of the foregoing has a Significant Financial Interest, unless the investment has been reviewed and approved in advance by the Audit Committee.
- Proposed business or financial transactions between the College and the Foundation, Foundation Personnel, Foundation Related Parties and/or Foundation Affiliated Entities, unless reviewed and approved in advance by the Audit Committee and found to be of clear benefit to the College, capable of proper management and oversight, and compliant with all applicable College

Policies, Administrative Procedures, and regulations regarding procurement and competitive bidding.

- Offers of full-time employment to any Relative of a Trustee or Administrator, unless reviewed and approved in advance by the President and ratified by the Audit Committee.
- Acceptance for personal benefit of any gift, entertainment, or other favor where the provision of such item or service might create the appearance of improper influence (other than items or services of nominal value that are clearly tokens of respect and friendship and are unrelated to any particular transaction).

Disclosure and Review of Conflicts. The ability to evaluate whether a potential or actual conflict of interests exists is hampered by non-disclosure of the potential or actual conflict. All College Personnel, therefore, have a duty to report promptly to the College's General Counsel, Internal Auditor or the chair of the Audit Committee any actual or contemplated transactions that may reasonably be viewed as being contrary to this Policy or any other Policy.

Recusal from Consideration.

Employees. College Employees who have an actual or potential conflict of interests shall refrain from participating in the College's consideration of the proposed relationship or transaction that is the subject of the actual or potential conflict, except: (1) to respond to questions or to provide further information; or (2) as authorized by the Audit Committee.

Trustees. Trustees who have disclosed an actual or potential conflict of interests shall refrain from participating in the College's consideration of the proposed relationship or transaction that is the subject of the actual or potential conflict, except that if any proposed transaction or relationship becomes subject to a vote by the Board, a Trustee who has an actual or potential interest in the proposed transaction or relationship must either: (1) disclose the Trustee's actual or potential interest before the vote; and/or (2) not participate in the vote. If a Trustee discloses an actual or potential interest before the vote on a proposed transaction or relationship, such disclosure shall be recorded in the minutes of the meeting at which the vote was taken.

As set forth in this Policy, the Audit Committee shall consider and approve or reject, as appropriate, relationships and transactions that may involve actual or potential conflicts of interests.

This Policy shall be construed in accordance with other Policies relating to ethics, conflicts of interest, Related Party transactions, and the like.

Economic Interests Disclosures

Mandatory Filing. It is the College’s policy to comply with the requirements of the Illinois Governmental Ethics Act, 5 ILCS 420/1-101 *et seq.* On or before May 1 of each year (or such other time as otherwise required by law), all Trustees, Administrators, and other Employees in the designated categories identified in Section 4A-101.5(c) of that Act shall file verified written statements of economic interests with the DuPage County Clerk.

Internal Disclosures. In addition, all Trustees and Administrators shall, no later than February 15 of each year, disclose to the College’s Internal Auditor all relationships, including but not limited to Related Parties, Affiliated Entities, and Significant Financial Interests, that constitute an actual conflict of interest, or which may reasonably be construed to constitute an actual or apparent conflict of interest. In the event of a change in circumstances, or if a disclosure is or becomes incomplete or inaccurate, the Trustee or Administrator shall promptly submit an amended disclosure.

This Policy carries a presumption that disclosure is required. If a Trustee, Administrator, or Employee is uncertain whether he/she is required to disclose a particular relationship, he/she should consult the College’s General Counsel.

Failure to make the disclosures and filings required under this Policy shall be a basis for disciplinary action, up to and including termination.

Employment of Related Parties

The Board is committed to ensuring the hiring and retaining of the most qualified persons for all positions and preventing nepotism at the College.

To avoid both the reality and the appearance of nepotism, Trustees and Employees may not participate in the hiring process relating to, supervision of, and/or employment-related decisions for Related Parties, whether as prospective employees or independent contractors, or for promotion or transfer within the College. Prohibition of Sex Discrimination, Sexual Harassment, Sexual Violence, and Relationship Violence

Statement of Policy. The College does not discriminate on the basis of sex in the education programs and activities it operates and is committed to maintaining a safe and healthy educational and working environment that is free from discrimination and harassment on the basis of sex, sexual orientation, gender identity, and gender expression (“Sex Discrimination”), and free from Sexual Violence (to include sexual assault) and Relationship Violence (to include domestic violence, dating violence and stalking). The College prohibits Sex Discrimination, Sexual Violence and Relationship Violence (hereinafter collectively referred to as “Prohibited Conduct”), as set forth herein, and is committed to taking action, to the extent possible (i) to stop behavior that violates this policy; (ii) to take remedial action to overcome the effects of said conduct and ensure equal access to its educational programs and activities; (iii) to prevent its recurrence; and (iv) to prevent and respond to retaliation against anyone who, in good faith, reports or is involved in the investigation into or resolution of allegations of Prohibited Conduct. In so doing, the College will administer prompt, fair and impartial investigations and disciplinary proceedings to respond to reports of Prohibited Conduct, provide equal and timely access to information that will be used in any informal and formal proceedings and meetings related to said reports, and offer and implement interim measures to protect and support those directly involved and affected by the alleged behavior, to include the survivors/victims of Prohibited Conduct (“Complainants”) and those accused of said behavior (“Respondents”). In implementing this policy, the College acknowledges that every Complainant has the right to be taken seriously and every Respondent has the right to know that guilt is not presumed.

Definitions. For purposes of this Policy, the following terms shall have the meanings set forth below:

- **Prohibited Conduct.** Prohibited Conduct includes the following conduct, as further defined herein: (1) Discrimination On The Basis Of Sex; (2) Sexual Harassment; (3) Dating Violence; (4) Domestic Violence; (5) Sexual Assault; (6) Sexual Violence; and (7) Stalking.
- **Discrimination On The Basis Of Sex.** Discrimination On The Basis Of Sex means an individual’s exclusion from participation in or denial of the benefits of any educational program or activity on the basis of sex.
- **Sexual Harassment.** Sexual harassment includes conduct on the basis of sex that satisfies one or more of the following: (1) an Employee conditioning the provision of an aid, service or benefit of the College on an individual’s participation in unwelcome sexual conduct; (2) unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person equal access to the College’s education program or activity; and/or (3) Sexual Assault, Dating Violence, Domestic Violence, or Stalking as defined herein.
- **Dating Violence.** Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the Complainant based on the reporting party’s statements, with consideration given to the length of the relationship, type of the relationship, and the frequency of interaction between persons in the relationship. Dating Violence

includes, but is not limited to sexual or physical abuse or threat of such abuse, but does not include acts covered as Domestic Violence (defined below).

- **Domestic Violence.** A felony or misdemeanor crime of violence committed by a: (1) current or former spouse or intimate partner of the victim; (2) person with whom the victim shares a child in common; (3) person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner; (4) person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred; or (5) any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

- **Stalking.** Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for the person's safety or the safety of others, or suffer substantial emotional distress.
- **Consent:** Consent means a freely given agreement to sexual activity, and consent may be withdrawn at any time. A lack of verbal or physical resistance, or submission resulting from the use or threat of force does not constitute consent. A person's consent to past sexual activity does not constitute consent to future sexual activity. A person's consent to sexual activity with one person does not constitute consent to sexual activity with another person. The College encourages anyone who believes they have been a victim of Sexual Assault, Sexual Violence, Dating Violence, or Domestic Violence to seek immediate assistance from a medical provider, including the treatment of any injuries, testing for and treating of sexually transmitted infections, and collecting and preserving of physical and other evidence. Under Illinois law, certain medical providers are required to alert police when an individual requesting

The College's website has information about the facilities closest to campus where an individual may have a medical forensic exam performed at no cost.

Supportive & Protective Measures. The College recognizes the importance of Complainants as well as Respondents to feel safe and secure on Campus. 1. Changes to academic, living, dining, financial, transportation, and working situations; and
2. Assistance with obtaining and enforcing Campus no-contact orders, orders of protection, no-contact orders, and/or any other order entered by a State civil or criminal court.

The Title IX Coordinator should be contacted to assist with requests and ensure implementation.

Protections.

Amnesty. The College encourages reporting of Prohibited Conduct, and it recognizes that students and employees may be hesitant to report an act of Prohibited Conduct in certain circumstances, such as when the reporter's own conduct may violate other College policies (e.g., underage drinking or drug use). To balance that concern and provide for the safety of the College community, no disciplinary action will be taken against an individual making a good faith report of Prohibited Conduct for the individual's own violation of other College policies that is revealed in the course of making such a report, unless the College determines that the violation was egregious (such as placing the health and safety of others at risk).

False Reporting or Testimony. Reports of Prohibited Conduct made pursuant to this Policy (and any corresponding procedures) that are later found to be intentionally false, made maliciously, or made with reckless disregard for the truth, or knowingly providing false or misleading testimony or evidence by a party or witness, shall constitute a violation of this Policy. This section does not apply to reports made or testimony given in good faith, even if the final disposition pursuant to the College's investigation and resolution procedures find that the reported conduct does not constitute Prohibited Conduct.

Retaliation Prohibited. Retaliation against an individual who makes a good-faith report alleging Prohibited Conduct, or who participates in the investigation or resolution of such a complaint is strictly prohibited. Retaliation includes, without limitation, threats, coercion, intimidation, or discrimination for the purpose of interfering with any right or privilege secured by law and this policy, and any materially adverse action taken against an individual as a result of the individual's participation in or assistance with the making of a good faith report of Prohibited Conduct, participation in or cooperation with or refusal to participate in or cooperate with the investigation and/or resolution of a report of Prohibited Conduct, and/or providing or refusing to provide testimony in connection with a report of Prohibited Conduct. Retaliation should be promptly reported to the Title IX Coordinator(s). Any acts of retaliation shall be grounds for disciplinary action, independent of any disciplinary action or interim measures imposed in response to the underlying report, and shall include the same potential penalties and disciplinary measures as those listed above. Whistleblower protections may be available to those reporting a violation of this Policy, including those provided under the State Officials and Employees Ethics Act, the Whistleblower Act, and the Illinois Department of Human Rights Act. Methods for reporting Retaliation may be found on the College's website.

Training. The College will provide annual training to all College employees, students, and contracted service providers who are involved in: (1) the receipt of reports of Prohibited Conduct; (2) the referral or provision of services related to Prohibited Conduct; or (3) the College's investigation and complaint resolution procedures for reports of Prohibited Conduct.

Sexual Violence Task Force. The President or his/her designee shall establish a Campus-wide task force for the purpose of improving coordination between the College and the community to prevent Sexual Violence, and shall appoint members to the task force as provided in the Illinois Campus Security Enhancement Act, 110 ILCS 12/10(b).

Children on Campus

The College recognizes that minor children often accompany adults on Campus. As an institution of higher education, the College's primary focus is on providing high quality educational and support services principally to adult learners. To facilitate an appropriate learning environment and minimize disruption, minor children are not permitted in any classroom, laboratory, or other student work areas, unless said minor child is doing so as part of a College-sanctioned prospective student visit.

Minor children shall not be present at an Employee's workplace or a Student's classes in lieu of childcare arrangements. The President or his/her designee may grant exceptions to this rule, limited in time, on a case-by-case basis in the event of emergency or other exigent circumstances. No Student, Employee, or visitor shall leave a minor child unattended on Campus at any time, including outside classrooms, laboratories, or student work areas where the accompanying adult is attending a class, activity, or other program; in Campus buildings; on Campus grounds; or in a vehicle parked on Campus.

Freedom of Expression on Campus

The College is committed to the principle of free and open inquiry, deliberation and debate. In accordance with its mission and the ideals of academic freedom, the College embraces its role as a promoter and facilitator of the free exchange of ideas by Students, Employees and members of the community at large. In order to fulfill that role, the College will make every effort to provide all members of the College community with the broadest possible latitude to speak, write, listen, challenge, and learn. The College respects and supports the freedom of Students, Employees, and all members of the College community to engage in expressive activities on Campus – including peaceable assembly; distribution, posting, and display of printed materials; solicitation of signatures; and presentation of speeches and outside speakers.

The ideas of different members of the College community will often and quite naturally conflict. However, it is not the proper role of the College to attempt to shield individuals from ideas and opinions they find unwelcome, disagreeable, or even deeply offensive.

The College is committed to the principle that debate, deliberation, or expression must not be suppressed because the ideas put forth are thought by some, or even by most, members of the College community to be offensive, unwise, immoral, or wrong-headed. It is for the individual members of the College community, not for the College as an institution, to make those judgments for themselves, and to act on those judgments not by seeking to suppress expression, but by speaking out against and contesting the ideas that they oppose. Indeed, fostering the ability of Students, Employees, and members of the community at large to engage in such debate, deliberation, and expression in an effective and responsible manner is an essential part of the College's educational mission.

As a corollary to its commitment to protect and promote free expression, all Students, Employees and members of the community at large must act with civility and mutual respect in conformity with the principle of free expression. Although members of the College community are free to speak out against the views expressed, and to contradict speakers who are invited to express their views, members of the College community may not obstruct or otherwise interfere with the freedom of others to express views they reject or even loathe. The College has a solemn responsibility not only to promote a lively and fearless freedom of expression, debate and deliberation, but also to protect that freedom when others attempt to restrict it.

However, the freedom to engage in expressive activities does not, and cannot, mean that individuals may do or say whatever they wish, wherever they wish. The College may restrict expression that violates the law; that falsely defames a specific individual; that constitutes a genuine threat or unlawful discrimination or harassment; that unjustifiably invades substantial privacy or confidentiality interests; or that is otherwise directly incompatible with the functioning of the College. The College may also reasonably regulate the time, place, and manner of expression to ensure that it does not disrupt the ordinary activities of College. However, such restrictions and regulations are narrow exceptions to the general principle of

freedom of expression, and the exceptions must never be used in a manner that is inconsistent with the College's commitment to freedom of expression and a completely free and open discussion of ideas.

The President and his/her designee(s) are authorized to develop and implement Administrative Procedures, rules, regulations, and guidelines regarding expressive activities on Campus—including peaceable assembly; distribution, posting, and display of printed materials; solicitation of signatures; presentation of speeches and outside speakers; and sponsorship of political events—consistent with this Policy; other Policies; the College's CBA obligations; the protections afforded by the First Amendment to the U.S. Constitution; and with all relevant federal and state laws and regulations, such as the Illinois Campus Demonstrations Policy Act, 110 ILCS 10/0.01 *et seq.*, and the Illinois College Campus Press Act, 110 ILCS 13/1 *et seq.*

Political Events on Campus

Because Illinois law, including the Illinois Election Code, 10 ILCS 5/1-1 *et seq.* (the “Election Code”), prohibits the use of public funds to urge electors to vote for or against any candidate or public question, the College supplements its Policy regarding Freedom of Expression on Campus (“Freedom of Expression Policy”) in accordance with the Election Code as set forth herein.

In addition to the respective requirements under all relevant Administrative Procedures, rules, regulations, and guidelines promulgated pursuant to the College’s Freedom of Expression Policy, any individual or group wishing to sponsor a political event, speaker, program, or other political expressive activity on Campus must advise participating candidates for public office and individuals who support or oppose propositions before the electorate that:

- (1) A speech or appearance on Campus does not constitute an endorsement by the College of a candidate or the advocacy by the College of a position on a public question;
- (2) No direct solicitation of funds or distribution of campaign fundraising literature is permitted on Campus; and
- (3) No distribution of campaign materials which state or imply that the College supports or opposes a candidate or a public proposition is permitted on Campus or elsewhere.

Notwithstanding any other provision of this Policy, nothing in this Policy permits the College to regulate the content of political expressive activity protected by the First Amendment to the U.S. Constitution. Further, this Policy shall be construed consistent with all relevant federal and state laws and regulations, including but not limited to the Illinois State Officials and Employees Ethics Act, 5 ILCS 430/1-1 *et seq.*, the Freedom of Expression Policy and other Policies.

Evaluation of Prospective Employees and Promotees

The College seeks to ensure that individuals who join the College's workforce or are promoted to positions within the College are qualified for the positions for which they have applied and have accurately presented their qualifications during the hiring process. This Policy also ensures that the College is exercising reasonable care in selecting its employees to promote a safe and productive educational environment and workplace.

References. For all positions, the hiring manager or his/her designee is responsible for checking professional references prior to an offer for employment being extended. Any questions regarding whether references are satisfactory must be discussed with the Vice President of Human Resources or his/her designee.

Background Screenings. All offers of employment (including internal transfers and promotions) may be contingent upon complete and satisfactory findings of all applicable background checks. Background screenings may include, but are not limited to, the following: social security number search, previous employers, sex offender registry, credit report, criminal records search, verification of academic credentials, driver's license and driving record check, verification of occupational and professional licenses, and/or a drug and alcohol screening.

The results of background screenings should be received and evaluated before an offer of employment is made to an applicant. In urgent situations that require a rapid employment action, an individual may begin to work contingent upon a satisfactory background screening result if: (1) professional references have been checked and are satisfactory; and (2) the appropriate Administrator and Vice President of Human Resources or his/her designee has approved the contingent hire.

Such examinations will be conducted by a board-certified medical physician, psychiatrist, or equivalent selected by the College, and will be at the expense of the College. The Department of Human Resources is responsible for notifying applicants of any required examinations.

After the initial hire, an Employee's physical, mental, or emotional ability to continue to perform the essential duties of his/her position may come into question. Either the College or the Employee may seek a medical determination of whether the Employee is capable of performing the essential functions of his/her position. Where the College seeks such medical evaluation, such determination shall be made by the Vice President of Human Resources, and the College shall bear the expense of the medical testing and evaluation (subject to Board approval as necessary). Where the Employee seeks to claim disability, the Employee bears the cost of any necessary medical testing and evaluation. Student Admissions and Enrollment

The College will maintain standards for admission of qualified Students, including, where appropriate, program-specific admission requirements. The College will publish its admission standards annually in the Student Handbook, College Catalog, Registration Guides, and elsewhere. Admission to the College does not guarantee entrance into a particular course or program of study.

The College's standards for admission will reflect its commitment to providing accessible education to the multicultural community it serves and to its high ethical standards. Where space constraints prohibit admission of otherwise qualified applicants, the College will accept those best qualified using rank in class and aptitude tests as guides. The College will give preference to in-district residents and students of other community colleges with which the College has a contractual arrangement for the mutual exchange of students.

With respect to enrollments, preference shall be given to all "service members" and "veterans," as those terms are defined in section 3-29.10(a) of the Community College Act, so that they receive priority enrollment as prescribed by law. Currently enrolled Students returning from active military service shall be given priority over all other Students in reenrolling in any unfinished course or courses from which they needed to withdraw upon being called to active military service.

The College will not admit applicants who are unlikely to benefit from college-level courses. Where appropriate, the College may recommend remedial education to prepare an applicant for college-level coursework and, upon satisfactory completion of such remedial coursework, reconsider admission. To recruit and retain more women and minorities in fields where they are underrepresented, the College will arrange special courses to help them overcome any prior educational deficiencies.

Otherwise qualified applicants who have a demonstrated history of academic dishonesty, criminal behavior or other serious misconduct may be denied admission at the College's discretion.

The College's admissions application shall contain a statement indicating agreement to be bound by the College's rules, including its Code of Student Conduct. By enrolling in College classes, Students agree to be bound by the College's Code of Student Conduct, Policies, Administrative Procedures, and other rules, guidelines, standards, and other criteria as may be issued from time to time.

The College will not unlawfully discriminate against any individual in its recruiting and/or admissions policies or decisions. The College's admission standards and decisions will reflect the College's diversity and anti-discrimination goals as supported by the College's Mission and Vision.

Tuition and Student Fees

The College will evaluate tuition rates and student fees on an annual basis and will publish the rates and fees taking effect for the Fall Semester to the public by March 31 of each year. Notice of intended or possible rate or fee increases is not required prior to publication.

Publication of the tuition rates and student fees, including the College's refund policy, will be fair, accurate and complete. Where tuition rates do not include additional student fees or expenses, the College will make appropriate disclosures to that effect.

The College may consider a variety of factors in setting tuition rates, including its mission, values, total cost of attendance, long-term planning goals, budgetary needs and the public good. The College may set variable tuition rates depending on the following factors:

- Residency. The College may set different rates depending on whether a Student resides within District No. 502 (an "in-district resident"); resides in Illinois outside of District No. 502 (an "out-of-district resident"); resides in the United States outside the State of Illinois (an "out-of-state resident"); or resides outside the United States (an "out-of-country resident"). The College will follow all statutes and regulations requiring that Students having certain characteristics, such as veteran status, receive the tuition rate set for in-district residents regardless of their actual residency status. In its discretion, the College also may classify other categories of Students who do not reside within District No. 502 as "in-district residents" for purposes of applying tuition rates consistent with Illinois law.
- Senior Citizens. The College may permit in-district residents who are "Senior Citizens," as that term is defined under section 1501.501, title 23, of the Administrative Code, 23 Ill. Admin. Code § 1501.501, to enroll in regularly scheduled credit courses, except those specifically designed for Senior Citizens, without payment of tuition, so long as classroom space exists and a minimum number of tuition-paying students are enrolled in the course.
- Additional Factors. The College may set variable tuition rates in its discretion based on a number of other factors, such as program type, term, time of enrollment, courses, and delivery method. Variation based on these other factors must be justified, such as where the cost of offering a particular program is higher than average.

The College may adopt program-, course- or activity-specific student fees as it deems appropriate.

The Board delegates to and authorizes the President to grant tuition waivers when such waivers will aid in achieving the mission and objectives of the College.

The President and his/her designee are authorized to develop and implement Administrative Procedures consistent with this Policy and relevant state and federal laws and regulations, including but not necessarily limited to the Community College Act, and corresponding provisions of the Administrative Code, and the federal Higher Education Opportunity Act of 2008, 20 U.S.C. § 1015a.

The College is committed to the principle of free and open inquiry, deliberation and debate in all matters. Accordingly, the College does not engage in the unlawful restraint of “Campus Media,” as that term is defined in the section 5, 110 ILCS 13/5 of the Illinois College Campus Press Act, 110 ILCS 13/1 *et seq.* (the “Act”). Accordingly, as with all forms of expressive activity on Campus, the College is committed to the principle that Student expression through Campus Media must not be suppressed because the ideas put forth are thought by some, or even by most, members of the College community to be offensive, unwise, immoral, or wrong-headed; and the content of Campus Media, both College-sponsored and not College-sponsored, shall not be subject to prior review by public officials of the College.

Further, in order to foster Campus Media, the College may designate Facilities and/or other resources for use by Campus Media outlets, as detailed in the relevant Administrative Procedures. Such Administrative Procedures shall address content-neutral rules and requirements for obtaining access to such resources. The College may also appoint one or more “Collegiate Media Advisors,” as that term is defined in section 5 of the Act, to facilitate, supervise and/or provide instruction relating to Campus Media. The College’s provision of such resources is not intended to be, and should not be, construed as the College’s endorsement of the form or content of any Campus Media. Campus Media is not speech made on behalf of the College nor does it necessarily reflect the College’s views or policies.

This Policy is intended to be construed consistent with the Act and with federal statutory protections of student speech rights at institutions of higher education found at 20 U.S.C. § 1101a, as added by the Higher Education Amendments of 1998, U.S. Pub. L. 105-244, § 101(a), and amended by the Higher Education Opportunity Act, U.S. Pub. L. 110-315, § 104.

Nothing in this Policy should be construed as prohibiting the College from adopting objective and fair Administrative Procedures, rules, regulations, and guidelines to ensure the safe and orderly operation of the College. Notwithstanding any other provision of this Policy, nothing in this Policy permits the College to regulate the content of expressive activity in violation of the protections afforded by the First Amendment to the U.S. Constitution.

The President and his/her designee are authorized to appoint Collegiate Media Advisors and to develop and implement Administrative Procedures, rules, regulations, and guidelines governing Campus Media at the College, consistent with this Policy, all applicable state and federal laws and regulations, other Policies, and the College’s CBA obligations. Violations of those Administrative Procedures, rules, regulations, and guidelines may subject an individual to disciplinary action.

Intercollegiate Athletics

Student athletics and intercollegiate athletic competition can be of great benefit to the College, including as a means for creating a greater sense of community and pride among Students, Faculty, Employees, alumni, and other citizens. A well-administered intercollegiate athletic program should bolster, but not detract from, the College's educational programs. Accordingly, the College may establish and maintain an intercollegiate athletic program ("Athletic Program"), consistent with the College's mission and values as determined by the Board, to enhance Campus and Student life.

In its Athletic Program, the College shall provide equitable opportunities for members of both sexes to participate in and enjoy the benefits of intercollegiate athletics as envisioned by the applicable provisions of Title IX of the federal Education Amendments of 1972, U.S. Pub. L. 92-318, §§ 901 *et seq.*, currently codified at 20 U.S.C. §§ 1681 *et seq.*, as amended, and related regulations, including 34 C.F.R. Part 106; and will develop Administrative Procedures and other rules and guidelines for ensuring equitable intercollegiate athletics opportunities for members of both sexes.

The College may affiliate with the National Junior College Athletic Association ("NJCAA") or other intercollegiate athletic association approved by the Board. The College intends to comply with the applicable rules and regulations of the NJCAA, or such other association it joins, to the extent they are consistent with the Illinois Collegiate Athletic Association Compliance Enforcement Procedures Act, 110 ILCS 25/1 *et seq.*, and other applicable federal, state and local laws and regulations. Student Clubs and Organizations

The College recognizes that participation in collegiate co-curricular and extracurricular activities enhances and enriches the educational experience. Thus, in accordance with its mission to serve as a center of excellence for teaching, learning and cultural experiences, the College will establish and maintain a process by which Student clubs and organizations (collectively, “Student Organizations”) may obtain official College recognition. Official recognition status makes a Student Organization eligible for College-sponsored benefits, such as financial support, access to certain communication channels, Facilities usage, and advisors, as detailed in the relevant Administrative Procedures.

The College’s official recognition of a Student Organization is not intended to be, and should not be, construed as an endorsement of the viewpoints expressed by the Student Organization. Student Organizations will be afforded official recognition status without regard to the content of the viewpoints they express so long as they comply with all rules and meet all requirements forest by the College for obtaining and maintaining official recognition status.

Nothing in this Policy is intended to preclude the College from adopting and enforcing reasonable rules and restrictions to ensure the orderly operations of the College and the safety of the College community. Notwithstanding any other provision of this Policy, nothing in this Policy permits the College to regulate the content of expressive activity in violation of the protections afforded by the First Amendment to the U.S. Constitution.

The Assistant Provost of Student Affairs and his/her designee are authorized to develop and implement Administrative Procedures, rules and restrictions for Student Organizations at the College, consistent with this Policy, all relevant federal and state laws and regulations, other Policies, and the College’s CBA obligations. Intellectual Property Rights

The College encourages creativity and increased productivity among its personnel, as well as the use of improved communication techniques in their instructional activities. A number of College-supported services and programs assist College Employees in the development and improvement of the College's methods of operation and instruction.

Rights to Intellectual Property – Ownership

Materials and/or inventions (hereinafter, "intellectual property") developed through a contractual "work-for-hire" agreement are solely owned by the College and are not available for use without the College's prior express written permission.

Intellectual property produced with "substantial support" provided by the College will be jointly owned by the creator and the College. A prior written agreement must be reached by the creator and the College specifying the sharing of ownership, distribution of materials, and fair use of the intellectual property within the College.

Intellectual property developed or produced without "substantial support" or without a contractual "work-for-hire" agreement is solely owned by the creator and are not available for use without the written permission of the creator.

"Substantial support" that is not a contractual "work-for-hire" will include at least one of the following:

1. Use of College personnel, equipment, supplies, or Facilities through contractual agreement with the College.
2. Technical support for course specific materials in excess of 20 hours. Should a new or revised project require in excess of 20 hours of technical support, ownership will be determined through an agreement with the College and the author/inventor prior to the start of the project.
3. Release time or remuneration secured by the College through external grants or other awards.

"Substantial support" specifically excludes assistance normally provided by the College in areas of electronic storage, technical training, accessing materials from College instructional systems, resolution of technical problems, coding or programming required to access a course, and other support not in place at the time when the prior agreement is signed. When a "work-for-hire" or "substantial support" prior agreement is not in effect, the College has the right at its sole discretion to provide or withdraw support.

Rights of Creators to Intellectual Property Produced With “Substantial Support” or “Work-For-Hire”.

When intellectual property is marketed, the creator and the College each are guaranteed a minimum of 10% of the equity gained from the intellectual property. Division of the remaining 80% of the equity will be determined by negotiation. Equity will be shared as it is realized. College costs will be recovered out of the College's share.

If the College discontinues use of the intellectual property for more than 24 consecutive months, the creator may ask the College to relinquish all rights to the creator, provided that the creator pays all costs of transfer. The College may refuse to relinquish rights to the intellectual property.

When intellectual property is owned by the College, either the creator or the College may initiate requests for revision. The College and the creator will initially discuss the necessary revisions and, where appropriate, may agree on the creator's commitment to prepare the necessary revisions. The creator shall prepare any revision initiated by either the creator or the College. Should the creator decline to prepare revisions, fail to supply revisions as agreed, or should the College deem it inappropriate for the creator to work on the revisions, the College may contract with another party to have the revisions prepared.

Revision procedures for jointly owned materials will be addressed on a case-by-case basis and will be considered non-precedent setting.

Intellectual Property Developed in Consulting Work.

The creator will retain all rights and title in any intellectual property made by the creator in the course of consulting, unless the intellectual property is produced with “substantial support” by the College or produced as a “work-for-hire”.

Intellectual Property Developed Specifically for Use by the College.

When intellectual property is prepared by a College creator specifically for use in classes at the College and is sold to Students through the College bookstore, no royalties or equity will be paid to the College or to the creator.

This Policy shall be administered consistent with the College's CBA obligations, all employment agreements, and applicable federal and state law. The General Counsel, or his/her designee, in consultation with the President, shall be responsible for promulgating Administrative Procedures, rules, and/or guidelines consistent with this Policy.

The College affirms its commitment as a place of free and open inquiry, and it recognizes that academic freedom is essential to those purposes.

COLLEGE OF DUPAGE ETHICS ORDINANCE

PREAMBLE

WHEREAS, the Illinois General Assembly has enacted the State Officials and Employees Ethics Act (Public Act 93-615, effective November 19, 2003, as amended by Public Act 93-617, effective December 9, 2003), which is a comprehensive revision of State statutes regulating ethical conduct, political activities, and the solicitation and acceptance of gifts by State officials and employees; and

WHEREAS, the Act requires all units of local government and school districts, within six months after the effective date of Public Act 93-615, to adopt ordinances or resolutions regulating the political activities of, and the solicitation and acceptance of gifts by, the officers and employees of such units “in a manner no less restrictive” than the provisions of the Act; and

WHEREAS, it is the clear intention of the Act to require units of local government and school districts to implement regulations that are at least as restrictive as those contained in the Act, and to impose penalties for violations of those regulations that are equivalent to those imposed by the Act, notwithstanding that such penalties may exceed the general authority granted to units of local government to penalize ordinance violations; and

WHEREAS, it is the clear intention of the Act to provide units of local government with all authority necessary to implement its requirements on the local level regardless of any general limitations on the power to define and punish ordinance violations that might otherwise be applicable; and

WHEREAS, because the Act provides for the imposition of significant penalties for violations of said local regulations, it is necessary to adopt the required regulations by Ordinance rather than by Resolution;

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF TRUSTEES OF COLLEGE OF DU PAGE, AS FOLLOWS:
