COLLEGE OF DUPAGE  
REGULAR BOARD MEETING  

BOARD APPROVAL  

1. ASSIGNMENT  
   Event Equipment Rental  

2. REASON FOR CONSIDERATION  
   A contract exceeding the statutory limit of $25,000 must be approved by the Board of Trustees.  

3. BACKGROUND INFORMATION  
   The Conference & Event Services department coordinates events throughout the College Campus annually; specifically, 12 large events are coordinated in the Physical Education Center Arena including the College's graduation ceremony, New Student Orientation, College Fair and STEMCON, as well as numerous rental events, such as high school graduations and craft shows.  

   To benefit from quantity pricing and to reduce labor costs by using a single vendor for events, especially those that are sequential, the College issued a bid for rental equipment, including staging, tables, chairs, pipe and drape, and linens, along with set-up and dismantle labor.  

   A legal notice for an Invitation for Bids was published on November 9, 2018 in the Daily Herald; the invitation was also posted to the College of DuPage Purchasing Website, and distributed to in-district Chambers of Commerce and to the College of DuPage Center for Entrepreneurship. Six (6) vendors were directly solicited. Eighteen (18) vendors downloaded the bid document. A public opening of the bids was held on November 29, 2018 at 2:00 p.m. in the College of DuPage Purchasing Department Conference Room (BIC 1B03A). The following individuals were in attendance: Jacoby Radford (COD Purchasing Manager/Facilitator), Susan Castellanos (COD Buyer/Recorder), Ellen Roberts (COD Director, Business Affairs), Bonny Balfanz (COD Conference & Events Specialist) and Elias Almazan (COD Chief Engineer, East Campus/Agent of the Board). Two (2) bids were received. No women/minority owned businesses submitted bids. The basis of award was established as the lowest responsible base bid.

BUSINESS ENTERPRISE PROGRAM
MINORITIES, FEMALES, PERSONS WITH DISABILITY
PARTICIPATION AND UTILIZATION PLAN

The Business Enterprise for Minorities, Females and Persons with Disabilities Act (BEP) establishes a goal for community colleges contracting with businesses that have been certified as owned and controlled by persons who are minorities (MBE), female (FBE/ also referred to as WBE), or persons with disabilities (PDBE) (collectively, BEP certified Contractor(s)). 30 ILCS 575

Contract Goal to be Achieved by Contractor: This solicitation includes an aspirational BEP participation goal of 20% based on the availability of BEP certified Contractors to perform or provide the anticipated services required by this solicitation.

The BEP participation goal is applicable to all bids or offers. In addition to the award criteria established for this solicitation, the College will award this contract to a Contractor that meets the goal or demonstrates good faith efforts to meet the goal. This goal is applicable to change orders and allowances within the scope of work provided by the BEP certified Contractors. If Contractor is an MBE and FBE certified Contractor, the entire goal is met and no subcontracting with a BEP certified Contractors is required; however, Contractor must submit a Utilization Plan indicating that the goal will be met by self-performance.

Following are guidelines for Contractor’s completion of the Utilization Plan. The Utilization Plan must demonstrate that Contractor has either: (1) met the entire contract goal; or (2) made good faith efforts towards meeting the goal.

At the time of bid or offer, Contractor, or Contractor’s proposed Subcontractor, must be certified with the Illinois Department of Central Management Services as a BEP certified Contractor.

Failure to complete a Utilization Plan or provide Good Faith Effort documentation shall render the bid or offer non-responsive; and subject to rejection and/or disqualification in the College’s sole discretion.

1. If applicable where there is more than one prime Contractor, the Utilization Plan should include an executed Joint Venture Agreement specifying the terms and conditions of the relationship between the parties and their relationship and responsibilities to the contract. The Joint Venture Agreement must clearly evidence that the BEP certified Contractor will be responsible for a clearly defined portion of the work and that its responsibilities, risks, profits and contributions of capital, and personnel are proportionate to its ownership percentage. It must include specific details related to the parties’ contributions of capital, personnel, and equipment and share of the costs of insurance and other items; the scopes to be performed by the BEP certified Contractor under its supervision; and the commitment of management, supervisory personnel, and operative personnel employed by the BEP certified Contractor to be dedicated to the performance of the contract. Established Joint Venture Agreements will only be credited toward BEP goal achievements for specific work performed by the BEP certified Contractor. Each party to the Joint Venture Agreement must execute the bid or offer prior to submission of the bid or offer to the College.
2. An agreement between a Contractor and a BEP certified Contractor in which a BEP certified Contractor promises not to provide subcontracting or pricing quotations to other Contractors is prohibited. The College may request additional information to demonstrate compliance. Contractor agrees to cooperate promptly with the College in submitting to interviews, allowing entry to places of business, providing further documentation, and to soliciting the cooperation of a proposed BEP certified Contractor. Failure to cooperate by Contractor and BEP certified Contractor may render the bidder or offeror non-responsive or not responsible. **The contract will not be awarded to Contractor unless Contractor’s Utilization Plan is approved by the College.**

3. **BEP Certified Contractor Locator References:** Contractor may consult CMS’ BEP Contractor Directory at [www.sell2.illinois.gov/cms/business](http://www.sell2.illinois.gov/cms/business), as well as the directories of other certifying agencies, but firms must be certified with CMS as BEP certified Contractors at the time of bid or offer.

4. **Contractor Assurance:** Contractor shall not discriminate on the basis of race, color, national origin, sexual orientation or sex in the performance of this contract. Failure by Contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the College deems appropriate. This assurance must be included in each subcontract that Contractor signs with a subcontractor or supplier.

5. **Calculating BEP Certified Contractor Participation:** The Utilization Plan documents work anticipated to be performed, or goods/equipment provided by all BEP certified Contractors and paid for upon satisfactory completion/delivery. Only the value of payments made for the work actually performed by BEP certified Contractors, by subcontractors or suppliers to such Contractors, is counted toward the contract goal. Applicable guidelines for counting payments attributable to contract goals are summarized below:

   5.1 The value of the work actually performed or goods/equipment provided by the BEP certified Contractor shall be counted towards the goal. The entire amount of that portion of the contract that is performed by the BEP certified Contractor, including supplies purchased or equipment leased by the BEP certified Contractor shall be counted, except supplies purchased and equipment rented from the Prime Contractor submitting this bid or offer.

   5.2 A Contractor shall count the portion of the total dollar value of the BEP contract equal to the distinct, clearly defined portion of the work of the contract that the BEP certified Contractor performs toward the goal. A Contractor shall also count the dollar value of work subcontracted to other BEP certified Contractor. Work performed by the non-BEP certified party shall not be counted toward the goal. **Work that a BEP certified Contractor subcontracts to a non-BEP certified Contractor will not count towards the goal.**

   5.3 A Contractor shall count toward the goal 100% of its expenditures for materials and supplies required under the contract and obtained from a BEP certified Contractor manufacturer, BEP certified regular dealer, or BEP certified supplier. A Contractor shall count toward the goal the following expenditures to BEP certified Contractors that are not manufacturers, regular dealers, or suppliers:

      5.3.1 The fees or commissions charged for providing a bona fide service, such as professional, technical, consultant or managerial services and assistance in the procurement of essential personnel, facilities, equipment, materials or supplies required for performance of the contract, provided that the fee or commission is
determined by College to be reasonable and not excessive as compared with fees customarily allowed for similar services.

5.3.2 The fees charged for delivery of materials and supplies required by the contract (but not the cost of the materials and supplies themselves) when the hauler, trucker, or delivery service is not also the manufacturer or a supplier of the materials and supplies being procured, provided that the fee is determined by the College to be reasonable and not excessive as compared with fees customarily allowed for similar services. The BEP certified Contractor’s trucking firm must be responsible for the management and supervision of the entire trucking operation for which it is responsible on the contract, and must itself own and operate at least one fully licensed, insured and operational truck used on the contract.

5.3.3 The fees or commissions charged for providing any bonds or insurance specifically required for the performance of the contract, provided that the fee or commission is determined by the College to be reasonable and not excessive as compared with fees customarily allowed for similar services.

5.4 BEP certified Contractors who are performing on contract as second tier subcontractors may be counted in meeting the established BEP goal for this contract as long as the Prime Contractor can provide documentation indicating the utilization of these Contractors.

5.5 A Contractor shall count towards the goal only expenditures to firms that perform a commercially useful function in the work of the contract.

5.5.1 A firm is considered to perform a commercially useful function when it is responsible for execution of a distinct element of the work of a contract and carries out its responsibilities by actually performing, managing, and supervising the work involved. The BEP certified Contractor must also be responsible, with respect to materials or supplies used on the contract, for negotiating price, determining quality and quantity, ordering the materials or supplies, and installing the materials (where applicable) and paying for the material or supplies. To determine whether a firm is performing a commercially useful function, the College shall evaluate the amount of work subcontracted, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the credit claimed for its performance of the work, industry practices, and other relevant factors.

5.5.2 A BEP certified Contractor does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction or contract through which funds are passed through in order to obtain BEP certified Contractor participation. In determining whether a BEP certified Contractor is such an extra participant, the College shall examine similar transactions, particularly those in which BEP certified Contractors do not participate, and industry practices.

5.6 A Contractor shall not count towards the goal expenditures that are not direct, necessary and related to the work of the contract. Only the amount of services or goods that are directly attributable to the performance of the contract shall be counted. Ineligible expenditures include general office overhead or other Contractor support activities.
6. **Good Faith Effort Procedures**: Contractor must submit Utilization Plans, subcontract documents, and/or Letters of Intent that meet or exceed the published goal. If Contractor cannot meet the stated goal, Contractor must document and explain within the Utilization Plan the good faith efforts it undertook to meet the goal. Utilization Plans are due at the time of and must be enclosed and sealed with the bid or offer submission. Copies of subcontract documents and/or Letters of Intent shall be due upon request.

7. **Contract Compliance**: Compliance with this section is an essential part of the contract. The following administrative procedures and remedies govern Contractor’s compliance with the contractual obligations established by the Utilization Plan. After approval of the Plan and award of the contract, the Utilization Plan becomes part of the contract. If Contractor did not succeed in obtaining BEP certified Contractor participation to achieve the goal and the Utilization Plan was approved and contract awarded based upon a determination of good faith, the total dollar value of BEP certified Contractor work calculated in the approved Utilization Plan as a percentage of the awarded contract value shall become the contract goal.

7.1. The Utilization Plan may not be amended after contract execution without the College’s prior written approval.

7.2. Contractor may not make changes to its contractual BEP certified Contractor commitments or substitute BEP certified Contractors without the prior written approval of the College. Unauthorized changes or substitutions, including performing the work designated for a BEP certified Contractor with Contractor’s own forces, shall be a violation of the utilization plan and a breach of the contract, and shall be cause to terminate the contract, and/or seek other contract remedies or sanctions.

7.3. If it becomes necessary to substitute a BEP certified Contractor or otherwise change the Utilization Plan, Contractor must notify the College in writing of the request to substitute a BEP certified Contractor or otherwise change the Utilization Plan. The request must state specific reasons for the substitution or change. The College shall notify the Council or its delegate of the request to substitute a BEP certified Contractor or change the Utilization Plan. The College reserves the right to approve or deny a request for substitution or other change in the Utilization Plan.

7.4. Where Contractor has established the basis for the substitution to the College’s satisfaction, it must make good faith efforts to meet the contract goal by substituting a BEP certified Contractor. Documentation of a replacement BEP certified Contractor, or of good faith efforts to replace the BEP certified Contractor, must meet the requirements of the initial Utilization Plan. If the goal cannot be reached and good faith efforts have been made, Contractor may substitute with a non-BEP certified Contractor or Contractor may perform the work.

7.5. If a Contractor plans to hire a subcontractor for any scope of work that was not previously disclosed in the Utilization Plan, Contractor must obtain the approval of the College to modify the Utilization Plan and must make good faith efforts to ensure that BEP certified Contractors have a fair opportunity to submit a bid or offer on the new scope of work.

7.6. A new BEP certified Contractor agreement must be executed and submitted to the College within five business days of Contractor’s receipt of the College’s approval for the substitution or other change.
7.7. Contractor shall maintain a record of all relevant data with respect to the utilization of BEP certified Contractors, including but without limitation, payroll records, invoices, canceled checks and books of account for a period of at least three years after the completion of the contract. Full access to these records shall be granted by Contractor upon 48 hours written demand by the College to any duly authorized representative thereof, or to any municipal, state or federal authorities. The College shall have the right to obtain from Contractor any additional data reasonably related or necessary to verify any representations by Contractor. After the performance of the final item of work or delivery of material by the BEP certified Contractor and final payment to the BEP certified Contractor by Contractor, but not later than 30 calendar days after such payment, Contractor shall submit a statement confirming the final payment and the total payments made to the BEP certified Contractor under the contract.

7.8. The College will periodically review Contractor’s compliance with these provisions and the terms of its contract. Without limitation, Contractor’s failure to comply with these provisions or its contractual commitments as contained in the Utilization Plan, failure to cooperate in providing information regarding its compliance with these provisions or its Utilization Plan, or provision of false or misleading information or statements concerning compliance, certification status or eligibility of the BEP certified Contractor, good faith efforts or any other material fact or representation shall constitute a material breach of this contract and entitle the College to declare a default, terminate the contract, or exercise those remedies provided for in the contract or at law or in equity.

7.9. The College reserves the right to withhold payment to Contractor to enforce these provisions and Contractor’s contractual commitments. Final payment shall not be made pursuant to the contract until Contractor submits sufficient documentation demonstrating compliance with its Utilization Plan.

If the BEP participation goal was not achieved, the Contractor must provide documented evidence of good faith efforts to achieve the goal.

Below is a checklist of actions that will be used to evaluate a Contractor’s Demonstration of Good Faith Efforts and Request for Waiver. Please check the actions which you completed. The College reserves the right to review and audit the results of the Contractor’s efforts as described below.

☐ Utilize the Sell2Illinois website: www2.illinois.gov/cms/business to identify BEP certified Contractors within the respective commodity/service codes denoted above and at a minimum email all listed Contractors and solicit quotes from all Contractors who express an interest via follow-up emails or telephone calls.

☐ Solicit through all reasonable and available means (e.g., attendance at a Contractor conference, advertising and/or written notices) the interest of BEP certified Contractors that have the capability to perform the work of the contract. Contractor must solicit this interest within sufficient time to allow the BEP certified Contractors to respond to the solicitation. Contractor must determine with certainty if the BEP certified Contractors are interested by taking appropriate steps to follow up initial solicitations and encourage them to submit a bid or proposal. Contractor must provide interested BEP certified Contractors with adequate information about the plans, specifications, and requirements of the contract in a timely manner to assist them in responding promptly to the solicitation.

☐ Select portions of the work to be performed by BEP certified Contractors in order to increase the likelihood that the goal will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate BEP certified Contractor participation, even when Contractor might otherwise prefer to perform these work items with its own forces.

☐ Make a portion of the work available to BEP certified Contractors and selecting those portions of the work or material needs consistent with their availability, so as to facilitate BEP certified Contractor participation.

☐ Negotiate in good faith with interested BEP certified Contractors. Evidence of such negotiation must include the names, addresses, email addresses, and telephone numbers of BEP certified Contractors that were considered and an explanation as to why an agreement could not be reached.

☐ Thoroughly investigate the capabilities of BEP certified Contractors and not reject them as unqualified without sound reasons.

☐ Make efforts to assist interested BEP certified Contractors in obtaining lines of credit or insurance as required by the College.

☐ Make efforts to assist interested BEP certified Contractors in obtaining necessary equipment, supplies, materials, or related assistance or services.
