

**Illinois Board of Higher Education / Illinois Community College Board  
Task Force on Campus Sexual Misconduct Climate Surveys  
Spring 2024**

Each higher education institution in Illinois is required by Illinois law (IL ILCS 155/35) to conduct an annual sexual misconduct climate survey of all students, beginning in Spring 2024. The survey will be developed by a Task Force and provided to College of DuPage by the Illinois Community College Board. The purpose of the survey is to gather information about the behaviors and perceptions that current students have related to relationships, sexual experiences, experiences with dating violence, and perceptions about safety at their college or university during the prior 12 months.

The College of DuPage Office of Research and Analytics emailed 18,944 students on April 9, 2024 and provided an anonymous link to the online survey form. A total of 177 students (1%) completed the survey form before it was closed on May 14, 2024.

- All full-time and part-time students who were at least 18 years or older (as of April 9, 2024) were invited to respond to the survey. High school students taking dual-credit courses were not included.

Based on guidance from the state of Illinois, to protect students, response options with fewer than 20 responses are identified with “too few responses” for reporting.

If you have any questions about the survey or this summary document, you can email [titleIX@cod.edu](mailto:titleIX@cod.edu).
