MEET THE STAFF

MAUREEN PRICE, ASSISTIVE TECHNOLOGY SPECIALIST

What she does:

I work with the students, faculty and staff to help them solve issues or streamline workflows through the use of technology.

Experience:

I have a bachelor's degree in psychology and a master's degree in teaching. As a former technical trainer and editor in the newspaper field, keeping up with constantly changing technology was part of the job. This led to a position in the IT department here at COD working

with faculty and staff on their technology needs and then eventually a shift to the Center for Access and Accommodations. I am thrilled to be working with students in such a dynamic department.

Interests:

I love spending time with my two kids and my dog. I also enjoy traveling, reading, going to the movies and visiting museums.
